    - Any overtime will be considered part of the game; any unexpired penalties will carry over into the overtime period.
    - One five-minute stop time overtime period will be played with a 4-on-4 configuration. As soon as the first team scores, the game is over and they are declared as the winner.
    - There will be no timeouts in overtime.
    - If there is no goal scored in the overtime, a shootout will be used to determine the winner as follows:

Shootout procedure: Players will begin from the center ice face off dot **in the order as supplied to the scorekeeper at the time of the shootout!** (NEW for 2012, Decide on your hottest scores during that game) Only one (1) shot is allowed, no rebounds. If a player loses control of the puck it will count as a shot on goal. The goalies will remain in the net they were in at the end of overtime. The first group of five (5) players from each team's shoot-out list will take alternate shots on the opponents goalie with the visitors shoot first. After each team's five have taken their shot, the team with the most goals will be the winner. If it is still tied, the balance of players will be used in order on the list. The next one (1) player from each team will take their shot on the opposing goalie, the visitor shooting first. When a team scores and the other does not, the team that scores will be the winner. **A Team must use all players on the roster before any player can take a second shot.** The only changes to the shoot-out list are if a player is sick, hurt, or if a player is in the penalty box. If this occurs, the next player on the shoot-out list is used.
