

2011/12 Acceleration North Hockey Team Pricing

Hockey teams have been implementing Acceleration North's hockey team training into their practice schedules for the past 10 years. Teams of 12 to 18 players' schedule 90 minute skill training sessions to work on skating stride, speed, agility, and puck handling and shooting skills. The coaches choose what they want our staff to work on and we break the team into 2 groups. The team coach doesn't need to teach any of the stations this year.
