1					<p><u>Shoot-out list is to be submitted to the scorekeeper prior to the start of each game.</u></p> <p>Players will begin from the center ice face off dot. Only one (1) shot is allowed, no rebounds. If a player loses control of the puck it will count as a shot on goal. The goalies will remain in the net they were in at the end of overtime. The first group of five (5) players from each teams' shoot-out list will take alternate shots on the opponents goalie with the visitors shoot first. After each teams' five have taken their shot, the team with the most goals will be the winner. If it is still tied, the balance of players will be used in order on the list. The next one (1) player from each team will take their shot on the opposing goalie, the visitor shooting first. When one team scores and the other does not, the team that scores will be the winner.</p> <p>A Team must use all rostered players before any player can take a second shot. The only changes to the shoot-out list are if a player is sick, hurt, or if a player is in the penalty box. If this occurs, the next player on the shoot-out list is used.</p>
